Chili

Amount 1 big crockpot full
Time 6 hours

Ingredients

- 2 cups dry beans
- 2 lbs ground beef
- 28oz crushed tomatoes
- 28oz tomato sauce
- Frozen corn (8oz?)
- 1 chopped onion
- 3/4c McCormick original chili seasoning

Steps

1. Optionally, soak beans overnight so they don't take as long to cook.
2. Put everything in crockpot.
3. Cook on high for 6 hours or until beans are soft.

Notes

Optionally, add chopped carrots, too. All measurements are approximate. Can used multiple kinds of beans (e.g., kidney, pinto, and black). Can use canned beans for shorter cooking time.
