Easy Pineapple Upside-Down Cake

Ingredients

- Yellow cake mix
- whatever cake mix says you need (e.g., eggs, oil)
- 1 cup brown sugar
- Large can crushed pineapple

Steps

1. Prepare the cake mix as it tells you to on the box.
2. Drain the can of pineapple and mix with the brown sugar. Grease the pan, or the individual cans, with a small piece of foil in each.
3. Put a scoop of the pineapple mixture in the bottom of each individual can, or all of the mix in the bottom of the large greased pan, and then fill with the cake mix. Make sure that it doesn't get more than half full with the cake mix!
4. Cook for as long as the cake mix box says.

Notes

Can cook in a box oven when camping!
